

# Press Release | Dynamic Form Field Specification |

**Purpose:** This document defines every field in the Press Release entry form. All sections marked **[STATIC]** are hardcoded in the HTML output. All sections marked **[DYNAMIC]** are filled in by the user through the form interface. The final output is a rendered HTML press release that matches the CRISIL format.

---

## 1. HEADER SECTION

| #       | Field Name       | Field Type               | Placeholder / Default                                          | Notes                                                   |
|---------|------------------|--------------------------|----------------------------------------------------------------|---------------------------------------------------------|
| 1.<br>1 | date             | Date<br>Picker           | Today's date                                                   | Renders as "DD Month YYYY" format in the output         |
| 1.<br>2 | city             | Text Input<br>(short)    | e.g. Mumbai                                                    | Shown beside the date, e.g. "January 29, 2026   Mumbai" |
| 1.<br>3 | company_name     | Text Input               | e.g. Tata Projects Limited                                     | Displayed as H1 title below date                        |
| 1.<br>4 | headline_summary | Text Area<br>(1–2 lines) | e.g. 'ACER AA / Stable' assigned to Non Convertible Debentures | Rendered in <i>italics</i> below company name           |

---

## 2. RATING ACTION TABLE [DYNAMIC ROWS]

Table headers are **STATIC**. Users add rows dynamically by clicking "+ Add Row".

**Static Column Headers (hardcoded):**

| Column | Label                 |
|--------|-----------------------|
| A      | Instrument / Facility |
| B      | Amount (INR Crore)    |
| C      | Current Ratings       |

|   |               |
|---|---------------|
| D | Rating Action |
| E | Regulator     |

### Each Row Fields:

| #       | Field Name      | Field Type   | Placeholder                                                                         | Notes                             |
|---------|-----------------|--------------|-------------------------------------------------------------------------------------|-----------------------------------|
| 2.<br>1 | instrument_name | Text Input   | e.g. Rs.500 Crore Non Convertible Debentures                                        | Full name of instrument           |
| 2.<br>2 | amount_inr      | Number Input | e.g. 500                                                                            | In INR Crore                      |
| 2.<br>3 | current_rating  | Text Input   | e.g. ACER AA/Stable                                                                 | Rating symbol with outlook        |
| 2.<br>4 | rating_action   | Dropdown     | Options: Assigned, Reaffirmed, Upgraded, Downgraded, Watch Positive, Watch Negative | Shown in parentheses after rating |
| 2.<br>5 | regulator       | Text Input   | e.g. SEBI, RBI, NHB                                                                 | Optional; shown in last column    |

**Controls:** [+ Add Row] button to append a new row. Each row has a [X Delete] icon.

### Static Footer Notes (hardcoded text below table):

- Details of Facilities/Instruments are in Annexure 2
- Facility-wise lender details are at Annexure 3
- List of facilities corresponding to respective FSR are in Annexure 5

---

**Unsupported rating – Text Input -** e.g. ACER AAA

### Static Footer Notes

- in case of credit enhanced ratings

### 3. ANALYTICAL APPROACH SECTION

The entire **Analytical Approach** table is **hardcoded** in the HTML template. It is not editable in the form.

### 4. BRIEF SUMMARY (DETAILED RATIONALE)

| #   | Field Name                  | Field Type       | Placeholder               | Notes                                                                                                                                                                             |
|-----|-----------------------------|------------------|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.1 | <code>rationale_body</code> | Rich Text Editor | Full multi-paragraph text | Main narrative body. Supports bold, italic, bullet points, and hyperlinks. Typically 3–6 paragraphs covering: business profile, credit metrics, parent support, key monitorables. |

### 5. KEY RATING DRIVERS — STRENGTHS [DYNAMIC BLOCKS]

Each strength is an expandable/collapsible block. Click **"+ Add Strength"** to append a new one.

Each Strength Block Fields:

| #   | Field Name                  | Field Type       | Placeholder                                                        | Notes                                                                                      |
|-----|-----------------------------|------------------|--------------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| 5.1 | <code>strength_title</code> | Text Input       | e.g. <b>Strong managerial and financial support from Tata Sons</b> | Displayed as bold subheading                                                               |
| 5.2 | <code>strength_body</code>  | Rich Text Editor | Bullet points or paragraphs                                        | Supports bullet lists, bold, italic. Covers: facts/reasons, criticality, ACER expectations |

**Controls:** `[+ Add Strength]` / `[X Remove]` / `[↑↓ Reorder]` (drag handles).

**Minimum:** 1 strength. **No maximum.**

## 6. KEY RATING DRIVERS — WEAKNESSES [DYNAMIC BLOCKS]

Same structure as Strengths above.

### Each Weakness Block Fields:

| #   | Field Name     | Field Type       | Placeholder                                                                | Notes                           |
|-----|----------------|------------------|----------------------------------------------------------------------------|---------------------------------|
| 6.1 | weakness_title | Text Input       | e.g. Modest operating performance and working capital-intensive operations | Bold subheading                 |
| 6.2 | weakness_body  | Rich Text Editor | Bullet points or paragraphs                                                | Same editor config as Strengths |

Controls: [+ Add Weakness] / [X Remove] / [↑↓ Reorder].

---

## 7. LIQUIDITY SECTION

| #   | Field Name          | Field Type       | Options / Placeholder                       | Notes                                                                                                                    |
|-----|---------------------|------------------|---------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| 7.1 | liquidity_indicator | Dropdown         | Superior, Strong, Adequate, Stretched, Poor | Rendered as bold label: "Liquidity: <b>Strong</b> "                                                                      |
| 7.2 | liquidity_body      | Rich Text Editor | Paragraph(s) describing liquidity           | Should cover: fund-based limit utilisation, unencumbered cash, capex plans, cash accruals vs. debt repayment obligations |

---

## 8. OUTLOOK SECTION

| #   | Field Name   | Field Type | Options / Placeholder                                                        | Notes                                     |
|-----|--------------|------------|------------------------------------------------------------------------------|-------------------------------------------|
| 8.1 | outlook      | Dropdown   | Stable, Positive, Negative, Watch Positive, Watch Negative, Rating Withdrawn | Rendered as bold label: "Outlook: Stable" |
| 8.2 | outlook_body | Text Area  | 1–3 sentences summarising outlook rationale                                  | Short paragraph below the outlook label   |

---

## 9. RATING SENSITIVITIES

### 9A. Positive Sensitivity Factors [DYNAMIC LIST]

| #   | Field Name                | Field Type              | Placeholder                                            | Notes                                                                     |
|-----|---------------------------|-------------------------|--------------------------------------------------------|---------------------------------------------------------------------------|
| 9.1 | positive_sensitivity_item | Text Input (repeatable) | e.g. Sustained improvement in operating performance... | Each item is one bullet point. Click "+ Add Positive Factor" to add more. |

Controls: [+ Add Positive Factor] / [X Remove].

### 9B. Negative Sensitivity Factors [DYNAMIC LIST]

| #   | Field Name                | Field Type              | Placeholder                                      | Notes                                                                     |
|-----|---------------------------|-------------------------|--------------------------------------------------|---------------------------------------------------------------------------|
| 9.2 | negative_sensitivity_item | Text Input (repeatable) | e.g. Deterioration in the scale of operations... | Each item is one bullet point. Click "+ Add Negative Factor" to add more. |

Controls: [+ Add Negative Factor] / [X Remove].

---

## 10. ABOUT THE COMPANY

| #    | Field Name             | Field Type           | Placeholde<br>r  | Notes                                                                                                                                                              |
|------|------------------------|----------------------|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 10.1 | about_company_body     | Rich Text Editor     | Multi-para graph | Full description: incorporation year, company type, business segments, geographies, promoters & shareholding, any restructuring/management changes in last 3 years |
| 10.2 | company_segments_table | Repeatable Row Table | —                | Optional embedded table for strategic business groups. Headers: "Strategic Business Group"   "Description". Click "+ Add Segment".                                 |

### Company Segments Table Rows:

| #     | Field Name          | Field Type | Placeholder                                   |
|-------|---------------------|------------|-----------------------------------------------|
| 10.2a | segment_group       | Text Input | e.g. Energy and Industrial                    |
| 10.2b | segment_description | Text Input | e.g. Energy and Resources, T&D, Advanced Tech |

---

## 11. KEY FINANCIAL INDICATORS TABLE [DYNAMIC ROWS]

Table headers are **STATIC**. Users can add or remove financial year columns.

### Static Row Labels (hardcoded left column):

- Operating Revenue (INR crore)
- EBITDA (INR crore)
- EBITDA Margin (%)
- Interest Coverage Ratio (x)
- Net Adjusted Leverage (x)
- PAT Margin (%)

Column Configuration Fields:

| #    | Field Name       | Field Type               | Placeholder                    | Notes                                        |
|------|------------------|--------------------------|--------------------------------|----------------------------------------------|
| 11.1 | financials_basis | Radio                    | Standalone, Consolidated, Both | Shown as subtitle                            |
| 11.2 | fy_columns       | Repeatable Year + Values | e.g. FY2025, FY2024            | Click "+ Add Year" to insert a new FY column |

Per FY Column (each year added):

| #    | Field Name        | Field Type   | Placeholder  |
|------|-------------------|--------------|--------------|
| 11.3 | fy_label          | Text Input   | e.g. FY 2025 |
| 11.4 | operating_revenue | Number Input | INR Crore    |
| 11.5 | ebitda            | Number Input | INR Crore    |
| 11.6 | ebitda_margin     | Number Input | %            |
| 11.7 | interest_coverage | Number Input | x (times)    |
| 11.8 | net_leverage      | Number Input | x (times)    |
| 11.9 | pat_margin        | Number Input | %            |

| 11.10 | financials\_source | Text Input | e.g. Issuer Name, ACER | Appears as "Source:" footnote below table |

---

## 12. STATUS & OTHER INFORMATION

| #    | Field Name             | Field Type       | Placeholder         | Notes                                         |
|------|------------------------|------------------|---------------------|-----------------------------------------------|
| 12.1 | non_cooperation_status | Rich Text Editor | e.g. Not Applicable | "Status of non-cooperation with previous CRA" |
| 12.2 | other_information      | Rich Text Editor | e.g. Not Applicable | "Any other information"                       |

---

## 13. ANNEXURE 1 — RATING HISTORY [DYNAMIC ROWS]

Table headers STATIC. Rows added dynamically.

**Static Column Headers:**

| Column | Label                                  |
|--------|----------------------------------------|
| A      | Instrument                             |
| B      | Rating Type                            |
| C      | Rated Limits (INR Crore)               |
| D      | Current Ratings                        |
| E      | Date of Last Rating Rationale (Year 1) |
| F      | Rating (Year 1)                        |
| G      | Date of Last Rating Rationale (Year 2) |
| H      | Rating (Year 2)                        |
| I      | Date of Last Rating Rationale (Year 3) |
| J      | Rating (Year 3)                        |

### Each Row Fields:

| #     | Field Name          | Field Type   | Placeholder                     |
|-------|---------------------|--------------|---------------------------------|
| 13.1  | hist_instrument     | Text Input   | e.g. Non Convertible Debentures |
| 13.2  | hist_rating_type    | Dropdown     | Long-term, Short-term           |
| 13.3  | hist_rated_limits   | Number Input | INR Crore                       |
| 13.4  | hist_current_rating | Text Input   | e.g. ACER AA/Stable             |
| 13.5  | hist_date_y1        | Date Picker  | —                               |
| 13.6  | hist_rating_y1      | Text Input   | —                               |
| 13.7  | hist_date_y2        | Date Picker  | —                               |
| 13.8  | hist_rating_y2      | Text Input   | —                               |
| 13.9  | hist_date_y3        | Date Picker  | —                               |
| 13.10 | hist_rating_y3      | Text Input   | —                               |

Controls: [+ Add Row] / [X Remove].

---

## 14. ANNEXURE 1.1 — COMPLEXITY LEVEL [DYNAMIC ROWS]

| #    | Field Name            | Field Type | Placeholder                     |
|------|-----------------------|------------|---------------------------------|
| 14.1 | complexity_instrument | Text Input | e.g. Non Convertible Debentures |
| 14.2 | complexity_level      | Dropdown   | Simple, Complex, Highly Complex |

Controls: [+ Add Row] / [X Remove].

---

## 15. ANNEXURE 2 — INSTRUMENT / FACILITY DETAILS

### [DYNAMIC ROWS]

Static Column Headers: Name of Facility/Security | ISIN | Date of Issuance |  
Coupon Rate | Maturity Date | Size (INR Crore) | Listing Status |  
Rating/Outlook

Each Row Fields:

| #    | Field Name          | Field Type   | Placeholder                             |
|------|---------------------|--------------|-----------------------------------------|
| 15.1 | ann2_facility_name  | Text Input   | e.g. Non Convertible Debentures         |
| 15.2 | ann2_isin           | Text Input   | e.g. INE725H08196 or NA                 |
| 15.3 | ann2_date_issuance  | Date Picker  | —                                       |
| 15.4 | ann2_coupon_rate    | Text Input   | e.g. 8.25% or NA                        |
| 15.5 | ann2_maturity_date  | Date Picker  | —                                       |
| 15.6 | ann2_size           | Number Input | INR Crore                               |
| 15.7 | ann2_listing_status | Dropdown     | Listed, Unlisted, Proposed to be Listed |
| 15.8 | ann2_rating         | Text Input   | e.g. ACER AA/Stable                     |

Controls: [+ Add Row] / [X Remove].

---

## 16. ANNEXURE 3 — FACILITY-WISE LENDER DETAILS

### [DYNAMIC LENDER + ROWS]

Grouped by lender. Click "+ Add Lender" to add a lender group; within each lender, click "+ Add Facility" to add facility rows.

#### Lender Group Fields:

| #    | Field Name               | Field Type | Placeholder         |
|------|--------------------------|------------|---------------------|
| 16.1 | <code>lender_name</code> | Text Input | e.g. HDFC Bank, SBI |

#### Facility Row Fields (within each lender):

| #    | Field Name                        | Field Type   | Placeholder                            |
|------|-----------------------------------|--------------|----------------------------------------|
| 16.2 | <code>lender_facility_name</code> | Text Input   | e.g. Fund-based working capital limits |
| 16.3 | <code>lender_amount</code>        | Number Input | INR Crore                              |
| 16.4 | <code>lender_rating</code>        | Text Input   | e.g. ACER AA/Stable                    |

Controls: [+ Add Lender] / [+ Add Facility] (within each lender) / [X Remove].

---

## 17. ANNEXURE 4 — COVENANT DETAILS

| #    | Field Name                    | Field Type       | Placeholder |
|------|-------------------------------|------------------|-------------|
| 17.1 | <code>covenant_details</code> | Rich Text Editor |             |

---

## 18. ANNEXURE 5 — FSR LIST

| #    | Field Name            | Field Type       | Placeholder |
|------|-----------------------|------------------|-------------|
| 18.1 | <code>fsr_list</code> | Rich Text Editor | —           |

---

## 19. ANNEXURE 6 — ENTITIES CONSOLIDATED [DYNAMIC ROWS]

Static Column Headers: Name of Entity | Extent of Consolidation | Rationale for Consolidation

Each Row Fields:

| #    | Field Name              | Field Type | Placeholder                                     |
|------|-------------------------|------------|-------------------------------------------------|
| 19.1 | entity_name             | Text Input | e.g. Artson Engineering Ltd                     |
| 19.2 | consolidation_extent    | Dropdown   | Full, Partial (Equity Method), Not Consolidated |
| 19.3 | consolidation_rationale | Text Input | e.g. 75% ownership and strong business linkages |

Controls: [+ Add Entity] / [X Remove].

---

## 20. APPLICABLE RATING CRITERIA [DYNAMIC LINKS]

| #    | Field Name    | Field Type | Placeholder                          |
|------|---------------|------------|--------------------------------------|
| 20.1 | criteria_name | Text Input | e.g. Basics of Ratings               |
| 20.2 | criteria_url  | URL Input  | Link to criteria PDF on ACER website |

Controls: [+ Add Criteria Link] / [X Remove].

---

## 21. ANALYTICAL CONTACTS

### Analytical Contacts [DYNAMIC — repeatable persons]

| #    | Field Name                       | Field Type  | Placeholder             |
